## Table of Contents

<b>Condensing Natural / LP Gas Boilers</b>		<b>4-12</b>
<b>ROYAL CH/CO</b>	Stainless Steel Wall Hung Combi & Heating Boilers (80-470 MBH)	<b>4</b>
<b>DCC/DCB</b>	Stainless Steel Wall Hung Combi & Heating Boilers (125-205 MBH)	<b>6</b>
<b>DCCF/DCBF</b>	Stainless Steel Floor Standing Combi & Heating Boilers (125-150 MBH)	<b>8</b>
<b>Controls &amp; Venting</b>		<b>10-13</b>
<b>MBC</b>	Multiple Boiler Control (MBC)	<b>10</b>
<b>VENTING</b>	Coaxial, Twin Pipe & CPVC Venting for Condensing Boilers	<b>11</b>
<b>Electric Boilers</b>		<b>14-15</b>
<b>AT SERIES</b>	Electric Wall Hung Heating Boilers	<b>14</b>
<b>Natural / LP Gas Boilers</b>		<b>16-29</b>
<b>XEB</b>	Cast Iron Induced Draft Chimney/Side Wall Vented (42.5-187.5 MBH)	<b>16</b>
<b>DXL</b>	Cast Iron Chimney Vented Boilers (59-235 MBH)	<b>18</b>
<b>WPSB</b>	Cast Iron Integral Draft Diverter Boilers (75-299 MBH)	<b>20</b>
<b>PSB</b>	Cast Iron Steam Boilers (75-299 MBH)	<b>22</b>
<b>D250</b>	Cast Iron Commercial Steam and Water Boilers (360-1,350 MBH)	<b>24</b>
<b>Oil Boilers</b>		<b>30-41</b>
<b>EXCELSIOR EXC</b>	Cast Iron 3-Pass Boilers (93-215 MBH)	<b>30</b>
<b>DHW MODULE</b>	Domestic Hot Water Module	<b>33</b>
<b>EMPIRE EWC</b>	Cast Iron Chimney Vented Boilers (112-217 MBH)	<b>34</b>
<b>SBO</b>	Cast Iron Steam Boilers (119-210 MBH)	<b>38</b>
<b>Indirect Tanks</b>		<b>40-49</b>
<b>H2O GL</b>	Single Coil Glass Lined Indirect Water Heaters (40-106 GALS)	<b>40</b>
<b>H2O SC</b>	Single Coil Stainless Steel Indirect Water Heaters (30-115 GALS)	<b>42</b>
<b>H2O DC</b>	Single & Dual Coil Stainless Steel Solar Water Heaters (60-115 GALS)	<b>44</b>
<b>H2O BT</b>	Stainless Steel Buffer Tanks (With & Without Coil) (22-115 GALS)	<b>46</b>
<b>H2O ST</b>	Stainless Steel Storage Tanks (No Coil) (30-115 GALS)	<b>48</b>
<b>Terms, Shipping &amp; Delivery Policy, RMA Policy</b>		<b>49-51</b>

## ROYAL SERIES CO/CH Stainless Steel Wall Hung Condensing Combi & Heating Boilers

### Residential Models:

- 8 models with inputs from 80 MBH - 200 MBH
- Stainless Steel Water-Tube Heat Exchanger
- Up to 95.2% AFUE with up to 10:1 Turndown
- Combi models provides Domestic Hot Water (CO)

### Commercial Models:

- 3 models with inputs from 299 MBH - 470 MBH
- DUO Power Stainless Steel Water-Tube Heat Exchanger
- Over 95% AFUE (CH-299) or Thermal Efficiency (CH-399/499)
- Easy Service with removeable side panels

### All Models:

- Intuitive programmable control
- Cascade up to 16 boilers
- 3 in 1 adjustable vent connector to attach different vent materials
- Vent with CPVC, PVC, Polypropylene, or Stainless Steel
- Natural Gas or easily field converted to Propane (LP)
- Robust wall hung design saves space
- Modbus connection standard

Residential

Commercial

## DCC/DCB Stainless Steel Wall Hung Combi & Heating Boilers

- MBH Input 125 - 205
- Up to 95% AFUE  
ENERGY STAR® Certified
- [AI] Control Technology Recognizes Natural or LP Gas  
No field conversion kit required.
- 3.5 gpm DHW Flow Rate @ 70°F Rise (150)  
5 gpm DHW Flow Rate @ 70°F Rise (205)
- LABOR SAVER™ Primary/Secondary Manifold Included
- Low Water Pressure Switch
- Wall Hung or Floor Stand Kit Available

## MBC Multiple Boiler Control

- Operation of up to Four Boilers
- LCD Display
- Push Buttons for Navigating Settings
- Warm Weather Shutdown (WWSD)
- Set Back Scheduling
- Boiler Stage Delay
- Boiler Rotation
- Combustion or Alarm Control Relay
- Flow or Combustion Air Proof Delay
- Energy Management System Compatible (0-10 or 2-10 Vdc)
- Sensors Included:
  - (1) Outdoor Sensor
  - (2) Water Temperature Sensors

## AT SERIES Electric Wall Hung Boilers

- 100% Efficient
- Compact Light Weight Wall Hung Design (70 lbs)
- Zero Emissions, Green Alternative (No Fossil Fuel, No Chimney, No Carbon Monoxide)
- Proven one piece cast iron heat exchanger
- Available in 2 or 4 element and modular boiler configurations:
  - 2 Element (4 capacities from 6 kW to 12 kW)
  - 4 Element (4 capacities from 12 kW to 24 kW)
  - Modular Boiler Configurations (40 kW+ for light commercial applications utilizing multiple boilers)
- 20 Year Limited Warranty (Residential)
- 5 Year Parts Limited Warranty (Residential)

## XEB Cast Iron Induced Draft Chimney/Side Wall Vented Boilers

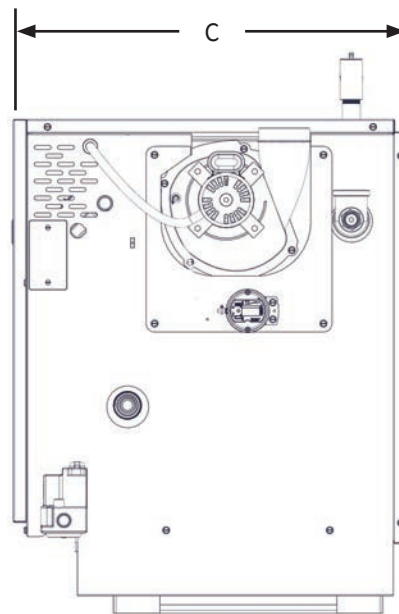

- MBH Input 42.5 - 187.5 (CH)
- Up to 84.4% AFUE
- Dependable Cast Iron Heat Exchanger with Cast Iron Push Nipples
- Honeywell High Limit/Electronic Ignition Control
  - Recessed under the boiler's protective jacket
  - Digital Temperature display and diagnostics
  - Plug in connection for the inducer fan
  - Plug in connection for the system pump
- Induced Draft Fan

## DXL-K Cast Iron Chimney Vented Boilers

- MBH Input 59 - 235 (CH)
- 84% AFUE
- Dependable Cast Iron Heat Exchanger
- Hydrostat Fuel Smart Control
- Digital temperature display and diagnostics
- Plug in connection for the vent damper
- Plug in connection for the system pump
- Control monitors water temperature and delays burner start until residual heat has been transferred to the system for maximum efficiency.

## PSB Cast Iron Steam Boilers

- MBH Input 75 - 299 (CH)
- Up to 82.7% AFUE
- Dependable Cast Iron Heat Exchanger with Cast Iron Push Nipples
- LWCO (Probe Type) Includes Pressure High Limit Control, Pressure Gauge, Gauge Glass
- Low profile compact design makes it ideal for low clearance installations
- Easy piping features with two 2 1/2" supply and two 2 1/2" return connections on both the left and right sides of the boiler. Optional 2" single and dual piping riser options (depending on boiler size), simplifying replacement piping
- Atmospheric Chimney Vent Boiler with Integral Draft Hood and Vent Damper
- Stainless Steel burner

## D250 Cast Iron Commercial Steam and Water Boilers

D250 Boiler Bases are pre-assembled at the factory with burner manifold, burner orifices, gas valves and electronic ignition installed; ready for field installation of the pre-tested sections and appropriate packages.

### Electronic Ignition Base Standard Equipment:

- Base
- Fire Door
- Burner Orifice
- Manifold
- Main and Pilot Burner
- Electronic Pilot Gas Valve
- Intermittent Pilot Module
- Complete Jacket Assembly

### Steam Trim Package:

- Low Water Cut-Off
- Glass Gauge Set
- Safety Valve
- Steam Gauge
- Pressure Limit
- Drain Valve

### Water Trim Package:

- Low Water Cut-Off
- Relief Valve
- Pressure Temp. Gauge
- Drain Valve

### Plug 'N Play Harness and Junction Box

Individual base and junction box controls are designed for easy installation. The entire boiler links together in a snap with a color-coded factory supplied wiring harness

### CSD-1 Options

Available with a CSD-1 option to comply with CSD-1 standards where required by building code. The CSD-1 option provides the increased number of controls and safety devices required to meet CSD-1 standards.

General Information (See IOM for Complete Instructions)

	Opening	Size	Steam	Water
	A	4"	Supply & Return	Supply & Return
	B	1/2"	Primary LWCO & Gauge Glass Set	Plugged
	C	3/4"	Drain, Left End	Drain, Left End
	C	3/4"	Drain, Right End	Drain, Right End
	D	1/2"	Plugged	Limit Control
	E	1"	Accessories	Accessories
	F*	1"	Safety Valve	Safety Valve
	G	3/4"	Plugged or Electronic (Probe Type) LWCO	Plugged
	*If using opening F for other than Safety Valve or Safety Relief Valve, or Safety/Relief valve is larger than 1", Install Safety/Relief Valve in Header Piping as near boiler as possible.

## D250 - Standard Equipment

Standard Equipment, Steam:

(67 Low Water Cut-Off, PA404A Pressuretrol and Syphon Loop, Water Gauge Glass Set with Glass and Rods, Steam Gauge, Pop Safety Valve).

Standard Equipment, Water:

(L4006A automatic reset high limit aquastat, 30PSI safety relief valve, temperature/pressure gauge).

## CSD-1 Control Requirements

The optional CSD-1 controls modify the standard D250 boiler on both the fuel train and the steam or water trim as follows:

### STEAM BOILER WITH BOILER FEED PUMP RETURN SYSTEM

- Add SF-500 Hydrolevel Safeguard Manual Reset L.W.C.O.
- Add 150S-B-MD L.W.C.O. and Pump Control
- Delete 67D-1 L.W.C.O.
- Add L404L Manual Reset Pressure Control

### STEAM BOILER WITH GRAVITY OR CONDENSATE PUMP RETURN SYSTEM

- Add SF-500 Hydrolevel Safeguard Manual Reset L.W.C.O.
- Add L404C Manual Reset Pressure Control

The SF-500 L.W.C.O. is the secondary L.W.C.O. to the 67D-1 L.W.C.O. furnished standard with the boiler.

### WATER BOILER WITH CSD-1 OPTION:

- Add SF-500 Hydrolevel Safeguard Manual Reset L.W.C.O.
- Add L4006E Manual Reset High Limit Control

### FUEL TRAIN

Substitute CSD-1 fuel train(s) for standard which includes (per base): Intermittent Pilot Module (PT#1140007) control Stop w/alarm 1003-612A & (PT#1140008) Control CSD1 Lockout Board BD 1145-2 with manual reset; Independent Pilot Gas Line (Manual shut-off valve, Pressure regulator, Safety shut-off valve); Main Gas Line (Gas Valve, Two leak test cocks, Manual shut-off downstream of the main gas valve).

### NOTES:

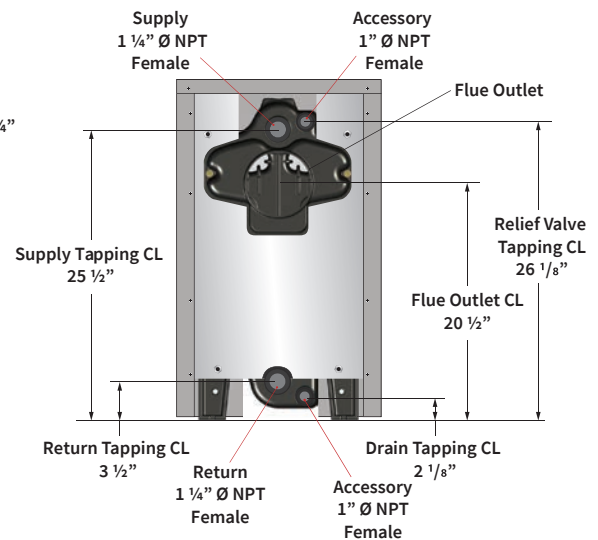

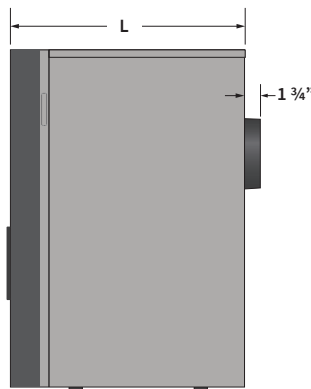

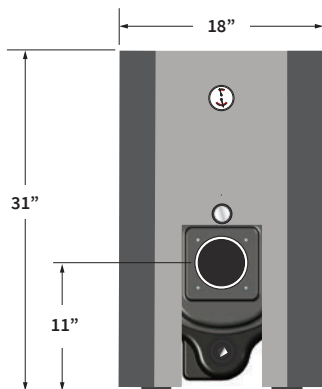

1. The D250-400 does not require fuel train modifications for CSD-1. The standard fuel train is furnished.
2. Control equipment is included to meet Dunkirk's interpretation of CSD-1. Consult local authorities before the installation of the boiler. Additional controls, if required can be provided at an additional price.

## EXCELSIOR EXC Cast Iron 3-Pass Oil Boilers

- MBH Input 93 - 215
- Up to 87% AFUE, ENERGY STAR® Certified Models
- Advanced High Efficiency 3-Pass Heat Exchanger Design
- Hydrolevel Fuel Smart HydroStat, combination Low Water Cut Off with boiler temperature reset and circulator control.
- Compact Footprint
- Burners and Venting Options
- Easy Serviceability with Reversible Swing Door

## DHW MODULE Domestic Hot Water Module (Sold Separately)

- The Domestic Hot Water (DHW) Module is a great way to make domestic hot water using an existing boiler
- Digital control has the ability to set a consistent DHW temperature from 108°F - 140°F
- Brazed plate stainless steel heat exchanger offers lower pressure drop than tankless water coils with nearly 100% heat transfer efficiency
- Simple and flexible installation - mounts on a wall near the boiler as an additional heating zone
- Compact design with insulated cover and a standard 120 volt power cord
- Easy to service and clean

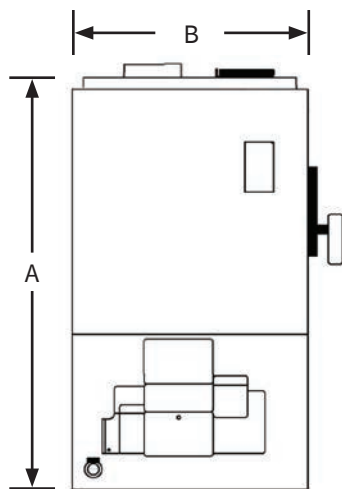

DHW Module			
Model	Item Number	Description	Trade Price
550003792	550003792D	DOMESTIC HOT WATER MODULE	\$1,366

## EMPIRE EWC Cast Iron Chimney Vented Oil Boilers

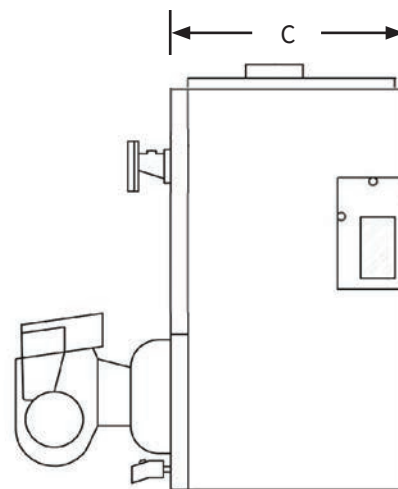

- MBH Input 112 - 217 (CH)
- Up to 86.2% AFUE
- Cast Iron Heat Exchanger with Cast Iron Push Nipples
- Swing out Burner Door
- Hydrolevel Operating Control
  - Digital display and diagnostics
  - Adjusts water temperature based on your heating system demand
  - Built-in Low Water Cut Off (LWCO)
- Optional Tankless Domestic Water Heater Coil

## SBO Cast Iron Steam Oil Boilers

- MBH Input 119 - 210 (CH)
- Up to 85.6% AFUE
- Dependable Cast Iron Heat Exchanger
- Cast Iron Swing out Burner Door and large flueways allow for easy cleaning and servicing
- Honeywell Pressure Control, Boiler Water Level Gauge Glass, and Steam Pressure Gauge
- Electronic Low Water Cutoff (LWCO)
- Atmospheric Chimney Vent Boiler

## H2O GL Single Coil Glass Lined Indirect Water Heaters

- 40 - 106 Gallon Capacities
- Easy to Install
- Low Pressure Drop
- Magnesium Anode Rod Corrosion Protection
- Enameled Coated Steel Tank and Coil
- Minimal Standby Losses
- Flexible Scratch Resistant Jacket
- Aquastat Sensor Well
- Temperature Pressure Relief Valve

(H2O40GL Model Shown)

## TERMS & CONDITIONS OF SALE - GENERAL TERMS

**PRICES & SPECIFICATIONS:** All pricing and specifications subject to change without notice. The prices herein supersede all prior quotations.

**ORDERS:** Orders will be accepted based on prices in effect at the time the order is received. No order or contract will become an obligation on our part until accepted by the General Sales Department. ECR International shall not be liable for any delay or failure in the delivery or shipment of goods due to any cause or causes beyond its control.

**TAXES:** Add to the prices and terms quoted any manufacturers' or sales tax payable on the transaction under any effective statute.

---

### SHIPMENTS

**TRUCKLOADS:** \$60,000 Net Order Value - Freight Prepaid. Indirect Water Heaters and Commercial Boiler lines can be added to any residential order for freight purposes. Authorized Distributors can combine Argo, Airco, Dunkirk, EMI, Olsen, Pennco, Utica Boilers and Utica Heating on one purchase order to earn free freight.

Stop off charges of \$200 will apply to stop off locations within 100 miles of the final destination. Please call for pricing for stop off special handling for a location further than 100 miles or for special handling pricing for services such as lift gate, unloading assistance, etc.

**LESS THAN TRUCKLOAD SHIPMENT: F.O.B. ECR INTERNATIONAL - FACTORY OR WAREHOUSE**

**See Shipping and Delivery Policy for full details.**

---

### SALES ORDER INFORMATION CHECK LIST

The following information must be included on equipment or parts orders to insure proper shipment & invoicing:

- |  |  |
|--|--|
| 1) Purchase Order Number                       | 7) Pricing   |
| 2) Bill to Address                             | 8) Product Description (Model, Size, etc.)   |
| 3) Ship to Address                             | 9) Fuel Type (Oil, Natural Gas, Propane)   |
| 4) Method of Shipment (trailer load, UPS)      | 10) Electrical (Operating Voltage, Cycles, Phases, etc.)   |
| 5) Requested Ship Date                         | 11) Non-Standard Equipment (Indicate "Optional" when substituted for standard equipment at extra cost listed. Indicate added to standard equipment.) |
| 6) Special Instructions ("Carrier to call...") | 12) Kits or Parts (Orders for kits or parts must indicate equipment size and series.)  |

Send orders to:

**E-mail: [ecrorderentry@ecrinternational.com](mailto:ecrorderentry@ecrinternational.com)**

**Fax: (315) 724-9319**

Please note the following Remit to Address:

**ECR International, Inc.  
P.O. Box 8000 Department 039  
Buffalo, NY 14267**

## SHIPPING AND DELIVERY POLICY

Shipping and Delivery Policy	
Order Type / Value*	Freight Charges*
All UPS, Fed, Ex, DHL, etc. Shipments	Freight & Handling Cost Apply
\$0.00 - \$5,000	Freight & Handling Cost Apply
\$5,001 - \$15,000	\$350
\$15,001 - \$59,999	\$300
\$60,000**	FFA

\*The above freight terms apply to single purchase orders or combined purchase orders from one company with one stop totaling the above reference tiers. Additional stops will incur additional charges. Pooling from multiple companies is not allowed under this freight program.

\*\*Orders of \$60,000 or more from one company with multiple stops will incur a \$200 stop-off charge per stop after the initial stop. Each stop location must be within 100 miles of the initial stop or additional charges will apply.

Because of packaging and shipping constraints, EMI products do not qualify for this freight program unless prior approval is obtained from your Regional Sales Manager.

Except for FFA qualifying orders, the above US shipping rates apply to shipments east of the Mississippi River. If shipments are beyond that area actual freight rates will apply.

These rates apply to destinations where no special delivery requirements are needed. Additional charges will apply when special handling and delivery is incurred. Pre-shipment notification of any special shipping or handling provisions is required. Unless otherwise noted, all products will be shipped FOB Shipping Point and transfer of ownership and responsibility is assumed by the customer for all loss or damage. ECR International will not be held liable for any damage, loss or costs which occur due to shipping delay. ECR retains the right to change or alter this program without notice and without penalty.

Family bundling is encouraged; boilers, furnaces, A/C, and controls can be combined to achieve freight tiers.

If you have any questions, please contact your ECR representative or ECR Regional Manager.

## U.S. DISTRIBUTOR - RETURN MATERIAL POLICY (RMA)

**Prior Approval Required** - All returns for exchange, credit, repair service or warranty claim must be approved by ECR International and require an RMA number prior to return of the material. A request must be completed via the online web portal. Please log on to [www.ecrcustomerportal.com](http://www.ecrcustomerportal.com) to complete your request for return. If you do not already have access to the customer web portal, please contact ECR International Customer Service at 1-800-325-5479 to be set-up.

**Eligibility** - An RMA Request must be received within 60 days from the date of invoice for returns of New & Unused product in original packaging. A restocking fee of 15% will be charged for all new and unused returns that are approved for return. Special Order Products (items not offered as standard in ECR International trade price book) are not eligible for return as new and unused product. Request for Warranty Returns must be made within the period covered by the warranty and must fall under the terms and conditions specified in the warranty.

**Repair Service** - Request for repair or rework of product damaged by customer is classified as Repair Service. Repair Service is billed at \$75.00 per hour for labor and net price for parts used in repair/rework. ECR International's Return Material (RM) department will evaluate the items returned for repair service. The customer will receive an estimate for the dollar amount, determined by ECR International's RM department, required to complete the repairs requested. A Purchase Order (PO) from the customer for that amount will be required before any work is performed.

**RMA Expiration Parts** - Once the RMA number is issued, the product must be returned within 60 days of the RMA date, or the RMA will be canceled. Products approved for return that are received after 60 days from the RMA date will not be accepted.

**Shipping & Packaging** - All returns must have a valid RMA number clearly displayed on the exterior of the package or the package will not be accepted. All returns of new and unused product must be in the original packaging. All returns must be shipped prepaid by the customer unless otherwise directed by ECR as indicated on the RMA Verification. Ship all approved return material to the facility indicated on the approved RMA Request by the date indicated.

**Replacement Product** - If replacement product is desired it must be indicated on the RMA Request. A PO# is required for the replacement shipment and must be indicated on the RMA Request. All replacement products will be invoiced at the time of shipment. ECR will pay the ground freight for all warranty replacements.

**Application of Credit** - Credit for returned product will be applied to the customer's account (less restocking fees for New and Unused returns) only after confirmation of receipt by ECR and inspection of the product. Issuance of a credit for a partial return of product does not relieve the customer from the obligation to remit payment for the merchandise not returned in accordance with the payment terms referenced on the customer's invoice(s). Customer will have the option to have any product that is denied for credit returned at their expense.

**Returning Installed Finished Goods** (Complete boilers, furnaces, A/C units etc.)

- Equipment that is already installed should be repaired not replaced. Exceptions: leaking cast iron boilers in their first year or leaking water tanks. Leaking drain valves on water tanks are replaceable, make sure the leak is not on the valve. Tanks returned with the only leak being on the valve will be denied.
- Cast iron blocks (not complete boilers) older than one year and Indirect tanks that are leaking do not require prior approval. Simply type "Leaking" into the Authorization field and it will be accepted. Complete Cast iron boilers within their first year will still require prior authorization for full boiler replacement.
- Water leaks on copper and condensing boilers are repairable and will require prior authorization for any reason for removal.
- To guarantee credit, if a situation arises where equipment does need to be replaced, **prior authorization** from ECR is required. This will ensure that ECR has visibility to the problem and has had an opportunity to correct it prior to removal. *All equipment considered for removal should first be brought to the attention of Technical Support at 1-800-253-7900.*
- If approved, an authorization number will be given that will need to be entered in the RMA on the Customer Portal.
- For equipment that is removed from service without prior authorization by ECR, contact Customer Service. They will evaluate the circumstance and can issue a conditional RMA. The equipment will be tested in our lab to determine if removal was warranted and if credit will be given.

**RMA Expiration Equipment** - Once the RMA number is issued, the product must be returned within 30 days of the RMA date, or the RMA will be canceled. Products approved for return that are received after 30 days from the RMA date will not be accepted.
