

December 19, 2025

Dear Valued Customer,

Effective February 2<sup>nd</sup>, 2026; ECR International will be implementing a new trade price sheet with a price increase on **Condensing Boilers, Indirect Tanks, Oil Furnaces, Argo Controls and Parts**. ECR has tried to minimize these increases for our customers. Please be advised that cast iron boilers and electric boilers will not experience a price increase at this time, and pricing will remain unchanged.

All Brands - Categories	Price Increase Percentages
Condensing Boilers	7%
Oil Furnaces	5%
Indirect Tanks	4%
Argo Controls	5%
Parts	5%

Please check the new list prices when distributed per electronic file. Pricing will be loaded and available on your ECR Distributor Web Portal by the first week of January and can be downloaded at: <https://www.ecrcustomerportal.com>.

Should you have any questions regarding these changes please do not hesitate to contact your ECR Representative, Regional Sales Manager, or Customer Service Representative at 1-800-325-5479.

Sincerely,

Bob Shea  
Executive Director of Sales  
ECR International
